PUPIL'S CUMULATIVE HEALTH RECORD

The purpose of this record is to give the health professional a concise summary of the student's school health history. It is not intended to be used for daily documentation. Parent and emergency information should be maintained elsewhere.

Screenings are recorded by date and student age rather than grade level. This accommodates changes in the primary program and documents the information more accurately for the student.

The reverse side of the form is designed to allow school personnel ample space to document other information pertinent to the school health program.
